

Peter B. Denton

138 Village at Vanderbilt
Nashville TN 37212

Phone: (616) 450-0749
Email: peterbd1@gmail.com

Education

Ph.D. Physics, Vanderbilt University (in progress).

B.S. Physics, Rice University, 2010.

B.A. Mathematics, Rice University, 2010.

Honors and Awards

Division of Particles & Fields travel grant to the APS April 2013 meeting.

The Robert T. Lagemann Award for highest academic achievement by a first-year graduate student.

“Topping-up” McMinn Fellowship.

Employment

DOE funded RA with Weiler at Vanderbilt University, Spring 2011–Present.

TA at Vanderbilt University, Fall 2010–Fall 2012.

RA with Pantelides at Vanderbilt University, Summer–Fall 2010.

Lee Teng Internship at Fermilab with Sen, Summer 2009.

TA for the Physics Department at Rice University, Fall 2009.

Bonner Labs at Rice University with Llope, Summer 2008.

Writing consultant at Rice University, 2007–2010.

Selected Research Topics

Cosmic ray anisotropy at the highest energies as seen through Pierre Auger Observatory and JEM-EUSO.

Beyond the standard model contribution to integral dispersion integrals for pp scattering at LHC energies.

The possibility of cosmic rays producing black holes in the atmosphere.

Matching Weinberg’s Higgs portal to N_{eff} measurements.

Characterizing electroweak bremsstrahlung with effective operators to reduce spin suppression.

Language Skills

L^AT_EX, beamer, python, matplotlib, C++, ROOT, MATHEMATICA, MATLAB, FORTRAN, gnuplot, java, html, and javascript.

Teaching

Teaching assistant for various freshman physics labs.

Tutoring English, math, and physics at middle school, high school, undergraduate, and graduate school levels.

Professional Societies

Member, American Physical Society
